New York 4, N. Y.

Dear Colonel Behn:

Thank you very much for your kindness in sending me that most interesting annual report of the International Telephone and Telegraph Corp. It is amazing to learn at first hand how widespread are the operations of your company.

While I am still very busy in learning how to take over this new job, I do hope that some time in the near future I shall have an opportunity of seeing you either in Washington or in New York.

Again with thanks for your thoughtfulness, please believe me,

Sincerely,

R/H N
